DOABA PUBLIC SEN. SEC. SCHOOL "MISSION"

Academic excellence is the hallmark of DPS and the school is committed in providing a comprehensive education which seeks to develop the students into academically proficient, morally upright and socially well-integrated leaders of tomorrow.

The work done by one man has an effect on the lives of every man in his vicinity and beyond. This is like when a stone is thrown in a pond and the first ripple creates further ripples in the water. "Service before Self" is the only way by which the world will be rid of all the problems we face today and we will be able to escape the 'charkravuyh' we have found ourselves in, today.

All we want is a smile on the faces of our students. Mother Teresa revolutionized and defined the term 'help' when she reached a foreign country and strived to serve mankind. We have a duty to follow her footsteps and find new ways to help our world become a better home. We have to do our part to convert Earth from a house to home for every man on Earth.

This is our world and we have to preserve it for the generations to come.

A true Doabian will always endeavour to do his/her country proud.

DOABA PUBLIC SEN. SEC. SCHOOL VISION "EVERY CHILD MATTERS"

Doaba Public School is founded on the principle of "Every Child Matters" where we strive to nurture intrinsically motivated, collaborative learners who listen, question, challenge and probe the world around them. They are taught to take ownership of their learning that aids them in becoming responsible, global citizens. We aim at creating an educational environment which motivates all the students to enhance their abilities, interests and talents to the fullest.

An Introduction to The Founder

Late Sardar Balwant Singh, Founder of Doaba Public Sen. Sec. School needs no introduction. An

eminent educationist and an able administration of vision and initiative. Unfortunately, he is no more in the world but he has left his guidelines and spirit of hard work and devotion to duty to inspire others.

Making his debut as a brilliant and devoted teacher S. Balwant Singh rose to the post of the Principal of Doaba Public Senior Secondary School. He served the institution for seventeen years with high credits. It would be no exaggeration to say that under his able supervision and patronage, the school scaled enviable heights in academic, sports and co-curricular fields. His endless efforts created an institution catering to the physical and moral development of the young, impressionable children.

Managing Director's Message

Dear Parents,

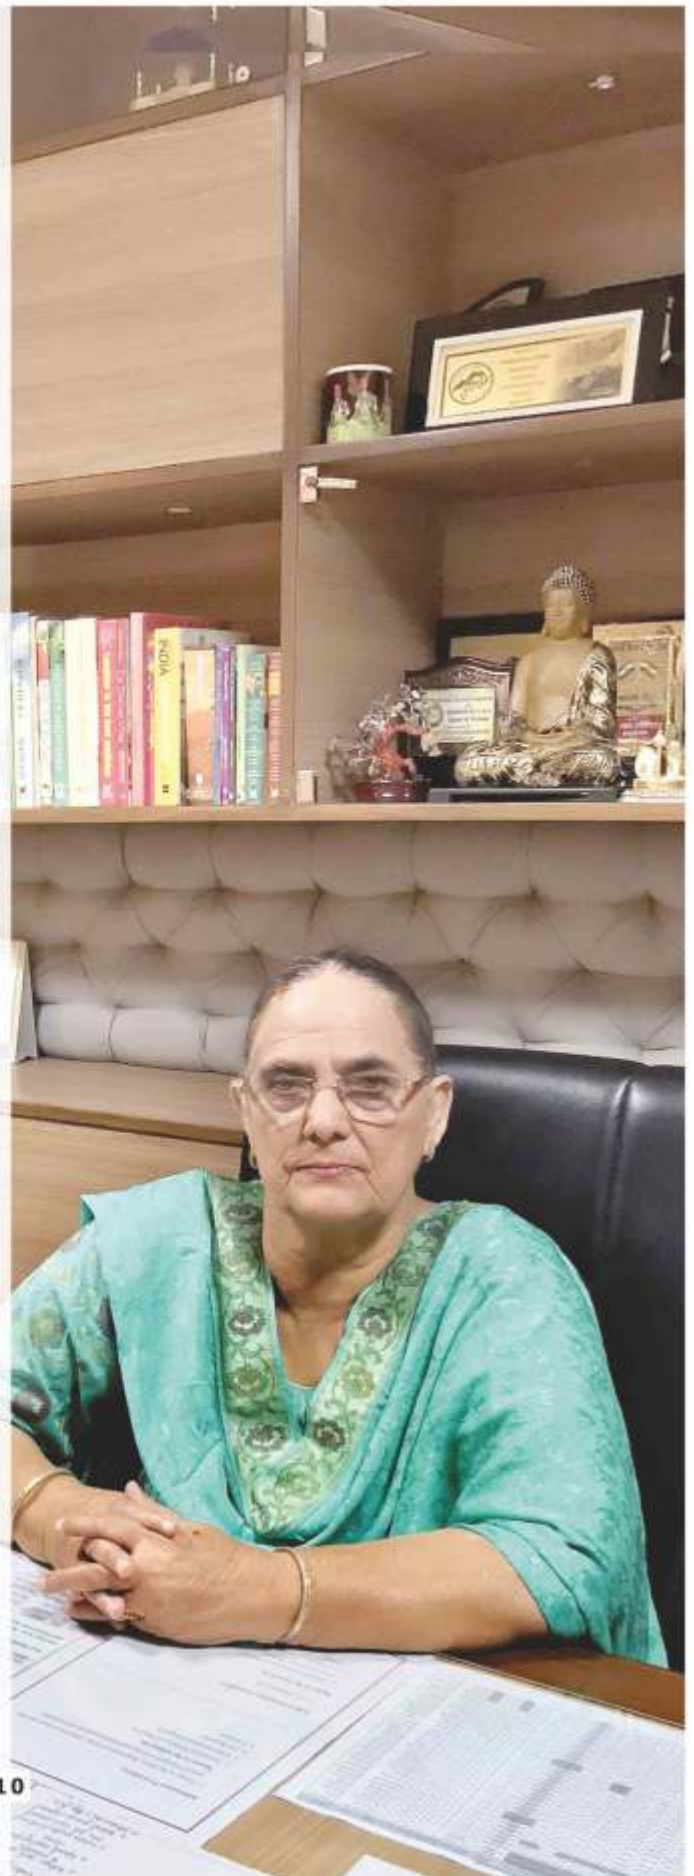

In today's age where schools having sprung up in every nook and corner or alley of the country, all making tall promises to trap the unsuspecting parents, the best way to choose a school for your child is to personally see it yourself. Website and magazine could all be made to look very attractive with the advancement of technology, but a hands on experience in a prospective school that you narrow down is the determining factor. This magazine will give you basic information and impression of "**Doaba Public Sen. Sec. School, Parowal**", that it is so special and distinctive in its character, however we would urge you to visit us and see how our boys and girls work, play and interact with our faculty members.

Your final choice of school is indeed a very critical moment in the life of your child. Personally, I am immensely proud of all that "**Doaba Public Sen. Sec. School Parowal**" has accomplished and continues to achieve both in the classroom and on the playing field, as well as all that it has to offer to ambitious minds that choose to study here. I look forward to your visit, to show you all what makes this school so special not only for those who study here, but also to many who passed through its portals over last four decades.

Yours Sincerely,

Mrs. Balvinder Kaur

Dean's Message

Welcome to **DOABA PUBLIC SEN. SEC. SCHOOL**

Dear Parents,

DOABA PUBLIC SEN. SEC. SCHOOL continues to uphold traditional values while adopting contemporary infrastructure and pedagogies. Individuals having diverse backgrounds, carrying unique streaks of values, traditions and cultures enter the portals of a learning community. At Doaba Public School, unrelenting effort goes in mentoring the uncut diamonds into finer Doabian gems.

DOABA PUBLIC SEN. SEC. SCHOOL is an amalgamation of competent teachers, state of the art infrastructure, an idyllic setting and experienced and efficient administration. Modern and secure infrastructure, pollution free environment, CBSE curriculum, excellent pastoral care, are some of our strengths.

Our approach is student centered and goes beyond text books and class room boundaries. Students develop practical skills, enabling them to apply their learning to unfamiliar situations and think critically about different issues. These prepare them for lifelong success. We have live multimedia presentations to facilitate deeper understanding of concepts. At the core of the school's educational philosophy, modern education and cultural heritage are complimentary and help the students to become better citizens. We inculcate respect for Indian Culture in the children.

It is because of our staff's selfless and relentless efforts that the school has reached majestic heights. Our designated goal of stretching the mind beyond the obvious has found an encouraging start in this year's excellent CBSE Class X & XII board results which complements this dream.

We are very grateful to our parents community for their sincere involvement in the School. Without their single-minded co-operation between the school and home we cannot offer the holistic education towards which we are striving.

Yours Sincerely

Mrs. Harpreet Kaur

Principal's Message

Dear Parents,

Your family is about to embark on a wonderful and exciting adventure. Let us work in partnership with you to nurture and educate your child. All the wealth of the world cannot help alone if the people are not taught to help themselves. Education therefore preserves and transmits social and cultural values to coming generations and welcomes social changes.

Our school is strengthened by a very supportive and wider parent community and we encourage you to become actively involved in all aspects of your child's education. All students are taught the skills and values necessary for success in education, life and work as true education is not simply bookish knowledge but teaching of lessons for life.

DOABIANS leave school as literate, numerate, well-educated citizens who have the capability, confidence and independence to make a positive contribution to our society. Success for all students is ensured by the delivery of an enriching and structured curriculum.

School's wholesome focus is on student welfare that focuses on the positive recognition of students achievements.

Our school motto, **SERVICE BEFORE SELF**, sums up the ethos and commitment of all staff to nurture the potential of every child, developing excellence in a caring environment where **"EVERY CHILD MATTERS"**. We are continually very proud of our history of 42 years, our values, our outstanding facilities and the high standards achieved by our students.

We pray to almighty to lead us to new horizons and hopes so that the legacy of Late S. Balwant Singh Ji be kept intact and passed on to generations to come through healthy teaching learning process.

Yours Sincerely

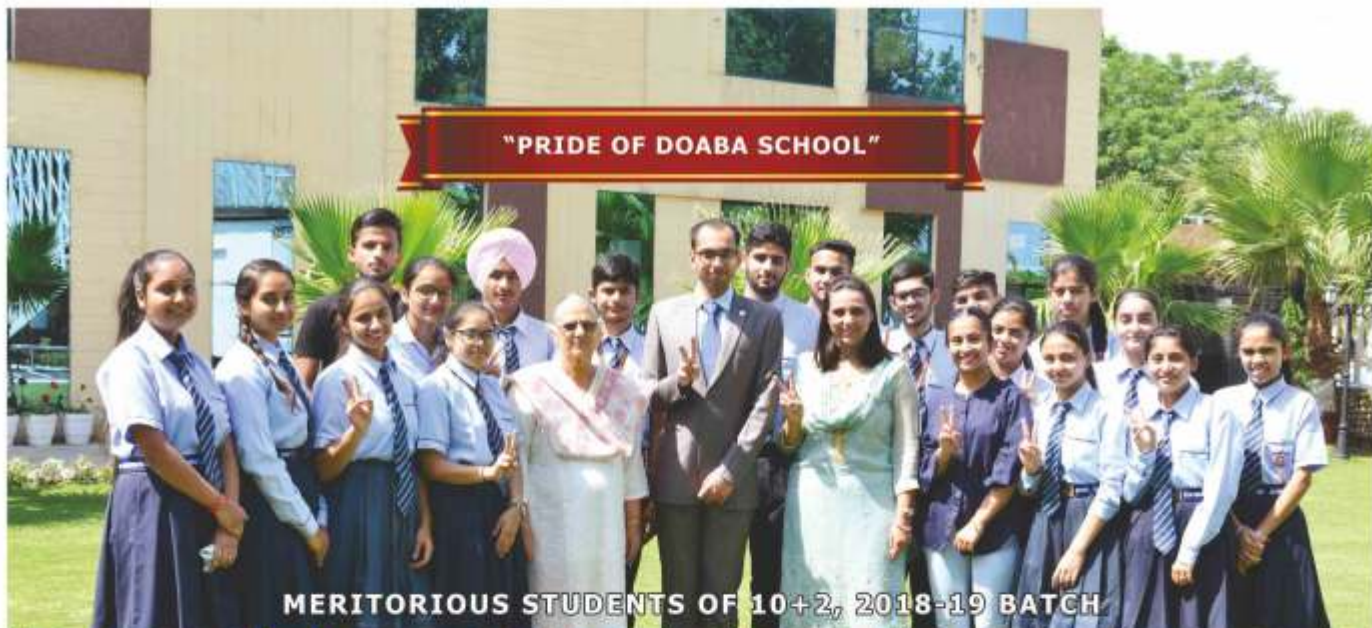

Mr. Gobind Luthra

INTRODUCTION:-

We hope that this magazine will convey to you something about the unique atmosphere of **DOABA PUBLIC SEN. SEC. SCHOOL**. We believe that "curriculum leads to outstanding progress in a highly caring community that ensures every student succeeds".

We are a school where learning is valued and where everyone celebrates effort and achievement. We embrace the philosophy that **"EVERY CHILD MATTERS"**. We are a vibrant and highly successful community which seeks to support every individual to achieve the very highest results and to develop a wide range of talents and interests. We work to promote culture of value education.

We are very proud of our school and the information in the magazine will help you understand the same.

"EVERY CHILD MATTERS"

A CARING SCHOOL:-

Students achieve in a caring environment that involves a very real and positive partnership between parents, students and the school.

We aim to provide a happy and exciting environment in which all students will succeed. We coach and counsel students to work hard, respect each other, be responsible and contribute to the life of the school.

All achievement's are celebrated and high standards are gained through the dedication and ability of our professional staff.

Doaba Public Sen. Sec. School is proud of its reputation as a caring school. Each student is treated as an individual and the school is, therefore, organised on a tutor based system.

We actively encourage our students to contribute to improving school life. The School Council provides voice of students and parents in the running of the school and treat it as an avenue to contribute their ideas in.

THE LIMITLESS BOUNDARIES :-

The institution is located in a huge campus spread over 10 acres of lands situated in village Parowal, barely 5 minutes journey away from Garshankar. The school is housed in a spacious and well ventilated building. New constructions is added from time to time. Rooms are airy and bright with natural as well as artificial light. Newest addition to the building is New Language Labs

THE PYRAMID TO SUCCESS:-

The School boasts of a student strength of approximate 2600 who are well taken care of by a highly qualified and compassionate staff. The medium of instruction is English with stress in communicative as well as creative part. The School is affiliated to C.B.S.E. New Delhi and follows the 10+2 pattern of education. To stratify the pyramid of success, school has three wings as under:-

(1) THE PRE-PRIMARY WING:-

The school has a special pre primary wing to sow the seeds of success. The rooms in this wing have been designed to the exquisite taste of the young buds. Mickey, Tweety and many other colourful characters adorn the walls. Toys and charts keep them busy and entertained. Audio-Visual Lab is used to help the tiny talents pick up new skills while enjoying themselves. New play station and a games park is an exclusive domain of this wing. The pre primary talents are nurtured through the play way methods. Experienced and compassionate staff helps the students to nurture the high ideals right from the beginning of their journey in the school as well as their life with the help of smart classes.

(2) PRIMARY AND MIDDLE WING :-

The primary and middle wings are built upon the strong foundation laid down by the pre-primary wing. It is during this phase that the students begin to realize and accept the responsibilities that have been entrusted to them by the nature along with their underlying abilities. The primary and middle wings have spacious rooms and all the infrastructure at their disposal like Computer Lab, Audio-Visual Lab, Science Labs and Maths and Social Science

Labs.

The primary and middle wings proudly claim to be manned by the most experienced and exceptionally dedicated staff which has produced students who have done the school proud by achieving success at district, state and national levels.

Happy Moments of Little Stars on Play Station

(3) SENIOR SECONDARY WING:-

The secondary wing gives the final look to the 42 years of hard work put in by the school, students and parents. The school ensures that the high expectations are colored in most vibrant colour at this stage. The State of the Art infrastructure is in the form of fully equipped Science Labs that help the students to bridge the gap between the bookish and theoretical knowledge in practical life. Helping in this endeavour are the highly qualified and multi-talented post graduate faculty.

The school offers three arms of education at this level (XI & XII).

A VISIT TO THE FOUNDATION:-

Doaba Public Sen. Sec. School was founded by Late S. Balwant Singh under the aegis of Doaba Educational Society in 1977. Since It's beginning the school has gone from strength to strength and has produced a wide array of talents that are serving the four corners of the world. We can proudly claim to be an institution that is shaping the future of the world and not just India.

S. Balwant Singh himself was the first principal of the school. Under her supervision the school became a premier institution known for its academic and non-academic result. School has a branch at Dohlon. Schools at both location have craved a special place for themselves in academic circles. School celebrated its silver jubilee in 2002. Since then school has achieved many heights. Mrs. Harpreet Kaur is the current **DEAN** of this school. As we complete 42 glorious years of learning and serving, we add many new aspects to this institution. With us we hold our glorious history and the most enviable records.

INVESTITURE CEREMONY 2019:-

"Leaders are the role models who inspire the followers and motivate them to reach the pinnacle of the success."

The Investiture ceremony 2019-20, one of the most eminent events of **Doaba Public Sen. Sec. School** was held with great enthusiasm and jubilation. The ceremony was held with lots of zeal and zest. It entrusted faith and hope in our newly appointed school council. Every student who obtained leadership role felt proud. The celebration day made every child who is elected as leader feel proud as well as gave

the sense of responsibility to be leaders making a better tomorrow. Simultaneously, they set a benchmark for the aspirational young students to perform exceptionally in the current session as they would be their heir in the future.

The council of students were honored with badges and sashes. New council crew took oath following the words of Dean Mrs. Harpreet Kaur where young leaders were urged to uphold the values of the school and cleave to their duties honestly and legitimately. Madam gave a call to every member of the school cabinet to be exemplary to other students and serve them well.

The entire student's selection process starting from nominations, self-appraisal, topic presentation and screening by a panel of judges comprising the Dean, Principal and heads was planned in a systematic way to ensure the transparency in the selection process.

HEAD GIRL MESSAGE

It is well said. "There is no limitation to what we can achieve and aspire for. The same lines true for the achievements this eminent institution. **Doaba Public Senior Secondary School** has achieved and is looking forward to extend its boundaries and welcome the doors of new inspirations, ideas and opportunities for a never-ending learning experience.

My Journey in this school from being a pre-schooler to the Head Girl, is nothing more than the wonders I went through, the confidence I gained, the vast knowledge I collected, the love and affection I received, the talent and skills I enhanced, the worth of everything I understood and most importantly the memories I amide to relish in future.

The laurels of becoming Head Girl brought the responsibilities duties and honour that I had always been dreaming and aiming about. I represented my school every time honesty with a feeling I am unable to put into words.

I am very much grateful to the school for giving me innumerable memories to look back upon and to the vast ocean of knowledge, my teachers, my inspirations. All the doabians I have ever encountered with, have always been exceptionally disciplined, supportive and understanding which just adds to my proud feeling of calling myself **'DOABIAN'**.

There is a lot more I wish to tell my readers about my school. But to conclude I would like to say that not every institute has the charm to make its students; its family but **DOABA PUBLIC SCHOOL** swiely has the shining spirit to do so!

HEAD BOY MESSAGE

Doaba Public Sen. Sec. School is a platform at which one can truly reach to the real talents and aspirations. This school is not just a place for study but also to embrace the inner talent and beauty of each child. The school tries its best to develop a student in each possible way. The faculty members of the school work to their level best to provide the education of each & everything.

Doaba Public School gives the opportunities for every field for the students to flourish. The school's efforts have made it able to be recognised as the one of the best schools. The motto of school is '**Service Before Self**' and has actually worked according to it.

The management of school has always worked in order to achieve the highest glories in field of education & knowledge. The students always find themselves in a friendly environment which helps them to push through their limits and try new things.

The school provides facilities such as air-conditioned classrooms, food warmers for hot food, smart classes powered by Educomp.

School provides opportunities for activity based learning which includes Inter School quiz, sports competition, Sahodaya Interschool competitions and many more. At least, I would like to say that this school is a place for overall development of the child.

MY SCHOOL

Doaba gives us education.
And a long summer and winter vacation
Eight periods in each day.
Lots of games and fields to play
One has to work hard
To get a good report card
One has to do a lot of exercise
To get medals and prizes
Boys and girls here don't scream
We all work together as a team
Students here don't waste their time
in gossips.
But try their best
to keep the promises.

THE FIRST DAY OF SCHOOL

I've got a brand-new lunchbox.
My shoes are shiny clean.
I've got a cool, new bookbag
And a pencil box that's green.
But I don't know my teacher,
Or where my desk will be
I don't know if I'll like the kids,
or if they'll play with me.
I peek inside my classroom.
I stand there for a while .
My teacher is tall and kind of loud,
But has a great big smile.
And, best of all, she's got my
favourite book upon the shelf
I kiss my mother at the door
And walk in by myself.

Trees are the kindest things I know,
 They do not harm they simply grow.
 They spread shack for sleepy cows,
 They gather birds among their boughs.
 They are first when the day's begun,

 They are last to hold the lights.
 When evening changes into night.

WHAT IS LIFE?

Something we live
 But just to live is not life.....
 Life has emotions
 Both happy and sad
 But just emotions
 is not life
 It makes life complete
 But its just a way
 Not life.....

"MY SCHOOL PROMISE"

Each day I'll do my best,
And I won't do any less.
My work will always please me,
And I won't accept a mess.
I'll colour very carefully,
My writing will be neat.
And I will not be happy,
Till my papers are complete.
I'll always do my homework,
And try my best on every test.
I won't forget my promise,
To do my very best.

NATURE

Nature is killed,
When we cut trees.
Nature is filled,
When we plant trees.
Nature is dwelled,
When it bears fruit.
Nature is built,
When it is safe guarded.
Nature is felt,
When we admire it.
Nature is doubled,
When we all join.
In planting trees.

I am Earth-(Glyn Lehmann)

I am the river flowing,
 I am the desert dry.
 I am the four winds blowing,
 I am the sunset sky.
 I am the forest breathing,
 I am the ocean wide.
 I am the storm clouds gathering,
 I am the mountain high.
 I am the earth,
 I am the earth.
 I am the earth,
 I am the earth.
 We are the children growing,
 You are the place we live.
 We are the seed you're sowing,
 We are the life you give.
 We are the future rising,
 We will be your voice.
 We will watch and learn from you,
 We will make the choice.
 I am the Earth,
 You're in our hands.
 I am the Earth,
 We're in your care.
 I am the Earth,
 Together we stand,
 I am the Earth
 This moment in time we share.
 We share the future,
 Stand side by side.
 One Earth, one people,
 We'll turn the tide.
 And in the future
 They'll say with pride,
 One Earth, one people
 We turned the tide.
 Side by side
 Side by side
 Side by side.

LET NO ONE STEAL FOR DREAMS

Let no one steal your dream,
 Let no one tear apart.
 The burning of ambition,
 That fires the drive inside your heart.
 Let no one steal your dreams,
 Let no one tell you that you can't,
 Let no one hold your back,
 Let no one tell you that you won't.
 Set your sights and keep them,
 Set your sights on high
 Let no one steal your dreams
 Your only limit is the sky
 Let no one steal your dreams,
 Let no one steal your dreams.

THE PART OF SPEECH POEM

Every name is called a noun,
As field and fountain, street and town.
In place of noun the pronoun stands,
As he and she can clap their hands.
The adjective describes a thing,
As magic wand or bridal ring.
The verb means action, something done,
As read and write and jump and run.
How things are done the adverbs tell,
As quickly, slowly, badly, well.
The preposition shows relation,
As in the street or at the station.
Conjunctions join, in many ways,
Sentences, words, or phrase
The interjection cries out, "Hark!
I need an exclamation mark!"

SAVE GIRL CHILD

1. Every guy needs a girl and a mother! If you kill all the girls, will you marry your brother?
2. A girl child brings joy, she is no less than a boy.
3. Give girls the wings to fly, not the pain to cry and die.
4. She makes bright still struggles, see the light.
5. Don't be cold, girls are worth more than gold.
6. Girls are like a butterfly why to make them cry.
7. Girls are gold, not to be sold.
8. A son is son till he get wife but a daughter is a daughter for her whole life.
9. No girl, so, no mother ultimately no life.
10. Don't kill girl in womb when she might bring country to gloom.
11. Our daughter is the knot that ties the family together.
12. A baby girl is one of the most beautiful miracles in life.

REFLECTION OF THE SCHOOL ON ME....

So, This is how it all started,

The biggest story of my life:-

2015: I returned from Adelaide

Wasn't so happy may be because I wasn't aware what that my life was about to be made.

2016: Realised that It's hardly been a year and I've mastered Hindi,Punjabi completely!
May be because of the people who taught me weekly...

2017: The school made me a "Disaster Management Club" member, They found me somehow... I still remember!

2018: Yay! Finally I became a language prefect, got included in the first Council batch, Kind of Made History!

2019: Watch out for me, I always come as a mystery!

MY DREAM

I got a present
In my Dream
I got some cream
So I went to town
And bought a clown
To help me make a cake
But the clown refused to
bake the cake
So I went to town
And bought a mound of butter
The clown closed the shutter

And threw the butter away
Then, I learnt a lesson
When you go out
Don't buy a moody clown
If you bought one
Be ready to hear him shout

THE WISE OLD MOUSE

A black cat happened to wander into a warehouse, where a mice live.

'This is the place for me, thought the cat. 'I pretended to be dead'. And the cat lay down on the ground. The younger mice ran towards it shouting, 'There's a dead cat. But a wise old mice stopped them and said 'Don't you know that a cat has nine lives?' Then the old mouse climbed up above the cat and opened a huge sack of flour that was resting on a large bin, The flour poured out and covered the cat, Which lay still for a moment. Then there come a sneeze and out of the flour come a white cat.

GOODNESS INSIDE HEART

One day a rich dad took his son on a trip to village.

He wanted to show him, how poor someone can be. They spent time on the farm with a poor family. Dad asked, " Did you see how poor they are? What did you learn?"

Son said, " We have one dog, they have four. We have pool, they have rivers. We have lanterns at night, they have stars. We have walls to protect us, they have friends. We buy foods, they grow their own. We have encyclopedias., they have bible." Then they headed.

"Thanks Dad for showing me how poor we are."

IMPORTANCE OF TIME

Time is the most important thing our life. Everyone has to respect and understand the value of time. Therefore, we should never waste it. Time which has gone is never going to come back. Time plays a significant role in our life. Our whole life revolves around time. It is better to follow and respect time instead of regretting afterward. A common saying "Time and Tide waits for none". This is the best-suited proverb as tide does not wait for anyone in the same manner time also does not wait for anyone. Time is more valuable than money because if money is spent, it can be recovered, however if we lose time once, then it cannot be recovered. Instead, we should make time our opportunity and grab it as it is really precious and important in our life. Thus, we have significant importance of time in our life.

CONTINUOUS EFFORTS ALWAYS LEAD TO SUCCESS

Once there were two frogs living near a pond. There was a sweet shop near the pond. One day the frogs were playing near the sweet shop and they accidentally fell in a vessel of milk. Now they both started moving their hands and feet in order to save their lives. After some time, one of the frogs said that he is tired of moving his hands and feet, So he stopped his hands and feet, he sank in the vessel of milk and eventually died. But the other frog kept on moving his hands and feet. And After sometimes the milk get churned due to continuous movements of frog's hands and feet. And the blocks of butter started floating over the butter milk. The frog jumped over a block of butter and got out of the vessel.

Therefore continuous efforts always leads

to success. So never give up your hope and keep doing efforts. One day you will surely get success in that thing.

PROUD TO BE A DAUGHTER

Daughter is the happy memory of the past, the joyful moments of present and the hope and promise of the future. Once a father wrote for his daughter.

Dear Daughter,

If I could give you one thing in life. I would give you the ability to see yourself through my eyes. Only then you would realize how special you are to me.

In many traditional cultures, fathers and mothers would pray for a boy who would be able to help in the field. In these cultures, the value of daughters were not understood. A father has a special relationship with his daughter as she will judge all men by his standard. A mother's task is to show her daughter the complex task of growing into a woman. We no longer live in an agricultural society and women are free to accomplish intellectually and occupationally what they couldn't in the past. A daughter may one day play the role of mother and wife. Raising a daughter is an infinite gift.

The Rise of Hima Das FROM 'Obscurity to the Spotlight'

Born in a poor family in the Nagaon district of Assam, sprinter, Hima Das enjoyed a meteoric rise.

18 years old Hima Das has created history by becoming the first Indian woman to win a gold medal in 400 meter event at the IAAF World U20 Jr Championships. Hima registered 51.46 seconds in the final at the Ratina stadium, Finland, on 12 July 2018.

The daughter of a rice farmer from Dhing village-Hima Das has worked hard to get this position, while her father did not have the money or the resources to get her the required training. Her village did not have any infrastructure either. Now she is finally called as "Dhing Express" in her village.

Hima Das has made India proud. She has made history saving hope into every aspiring young athlete.

TO DAD, WITH LOVE

A Father is a person who takes risks for the family. He is the only person who spends briskly for us. A father can't be described in words. Some times, he is not considered part of the family. But he can never stay away from his loved ones. If he's doing his job or any pending work, don't complain on his face. Go well through the phrase. He is staying for his family. In pain, let his efforts not go in vain. Those who don't have a father always miss something. But only some understood what is actually happening. Fathers in the Army are always making the country proud and have never been cowed down by any shout.

We love you dad!!

NEWSPAPER

Newspaper provides us with information collected from around the globe. It also helps to develop new ideas, and at times guide the common man how to think and discuss.

We may say that today we are living in a newspaper culture. whether in English or other regional languages, almost every man gets benefited from newspaper.

A newspaper acts an important medium to control corruption and scams.

Newspaper is a mode of mass communication. It is very helpful in creating social awareness. Newspaper raises voices against social issues such as child labour, dowry system, etc. They guide the common people to act and behave in a rational manner.

We get the information of the forth coming movies and television shows through a newspaper. It also contains a list of multiplexes with time-schedule for the movies.

A wide coverage of information is obtained at low cost through newspaper. It also influences the habit of thinking in men. It has also seen that illiterate adults are taking up education to read newspaper.

There are such dailies that trade on such dirty tricks for survival. Being politically left or right, they misrepresent strikes and lockouts. Events like bank robbery and train accident or similar untoward events are distorted or exaggerated.

They deliberately make their news sensational because it helps them increase their TRP.

ਕਿਉਂ ਬਾਂਹ ਇਨ੍ਹਾਂ ਦੀ ਕੰਬੀ ਨਾ।

1. ਰਾਮ (ਮੋਹਨ ਨੂੰ) ਜਦ ਮੈਂ ਜੰਗਲ ਵਿੱਚ ਇੱਕਲਾ ਜਾ ਰਿਹਾ ਸੀ ਤਾਂ ਮੈਨੂੰ ਡਾਕੂ ਮਿਲੇ। ਉਹ ਮੇਰੀ ਕਾਰ ਅਤੇ ਬਣੂਆ ਲੈ ਗਏ।

ਕੰਮ ਦੀਆਂ ਗੱਲਾਂ

1. ਖੂਨ ਵੀ ਬੜੀ ਅਜੀਬ ਚੀਜ਼ ਹੈ, ਬਲਣਾ ਸਭ ਨੂੰ ਚੰਗਾ ਲਗਦਾ ਹੈ ਤੇ ਸੁਣਨਾ ਸਭ ਨੂੰ ਬੁਰਾ।
2. ਛੋਟੀਆਂ-ਛੋਟੀਆਂ ਗੱਲਾਂ ਦਿਲ ਵਿੱਚ ਰੱਖਣ ਨਾਲ ਵੱਡੇ-ਵੱਡੇ ਰਿਸ਼ਤੇ ਕਮਜ਼ੋਰ ਹੋ ਜਾਂਦੇ ਹਨ।
3. ਤੁਸੀਂ ਚਾਹੋ ਕਿੰਨੇ ਵੀ ਚੰਗੇ ਕੰਮ ਕਰੋ ਜਾਂ ਕਿੰਨੇ ਵੀ ਇਮਾਨਦਾਰ ਬਣ ਜਾਓ ਪਰ ਇਹ ਦੁਨੀਆਂ ਸਿਰਫ਼ ਇੱਕ ਗ਼ਲਤੀ ਦਾ ਇੰਤਜ਼ਾਰ ਕਰ ਰਹੀ ਹੈ।
4. ਇਨਸਾਨ ਉਸ ਵਕਤ ਸਭ ਤੋਂ ਜ਼ਿਆਦਾ ਬੇਵਕੂਫ਼ ਬਣਦਾ ਹੈ ਜਦੋਂ ਉਹ ਕਿਸੇ ਹੋਰ ਨੂੰ ਬੇਵਕੂਫ਼ ਬਣਾਉਣ ਦੀ ਕੋਸ਼ਿਸ਼ ਕਰ ਰਿਹਾ ਹੁੰਦਾ ਹੈ।
5. ਮਾਂ ਚਾਹੀਦੀ ਹੈ, ਭੈਣ ਚਾਹੀਦੀ ਹੈ, ਪਤਨੀ ਚਾਹੀਦੀ ਹੈ ਤੇ ਫਿਰ ਬੇਟੀ ਕਿਉਂ ਨਹੀਂ ਚਾਹੀਦੀ?
6. ਕੋਈ ਕਿੰਨੀ ਵੀ ਨਿੰਦਿਆਂ ਕਿਉਂ ਨਾ ਕਰੇ, ਤੁਸੀਂ ਆਪਣੇ-ਆਪ ਤੇ ਕਾਬੂ ਰੱਖ ਕੇ ਸ਼ਾਂਤ ਰਹੋ।

ਆਓ ਹੱਸੀਏ

1. ਰਿਸ਼ਤੇ ਬਹੁਤ ਹੀ ਨਾਜ਼ੁਕ ਹੁੰਦੇ ਹਨ, ਅਕਸਰ ਇਹ ਛੋਟੀਆਂ-ਛੋਟੀਆਂ ਗੱਲਾਂ ਪਿੱਛੇ ਟੁੱਟ ਜਾਂਦੇ ਹਨ, ਉਦਾਹਰਨ ਵਜੋਂ ਮੂੰਗਫਲੀ ਮੈਂ ਦਾਣਾ ਨਹੀਂ, ਹਮ ਤੁਮਾਰੇ ਮਾਮਾ ਨਹੀਂ।
2. ਅਧਿਆਪਕ-ਛਿਪਕਲੀ ਕੌਣ ਹੈ? ਪੱਪੂ- ਛਿਪਕਲੀ ਇੱਕ ਗਰੀਬ ਮਗਰਮੱਛ ਹੈ, ਜਿਸਨੂੰ ਬਚਪਨ 'ਚ ਬੌਰਨਵੀਟਾ ਨਹੀਂ ਮਿਲਿਆ ਤੇ ਉਹ ਕੁਪੋਸ਼ਨ ਦੀ ਸ਼ਿਕਾਰ ਹੋ ਗਈ।

ਲੋਕਤੰਤਰ- ਤੰਤਰ ਜਾਂ ਮੰਤਰ

ਭਾਰਤ ਨੂੰ ਦੁਨੀਆਂ ਦਾ ਸਭ ਤੋਂ ਵੱਡਾ ਲੋਕਤੰਤਰ ਮੰਨਿਆ ਜਾਂਦਾ ਹੈ। ਇਸ ਦੇ ਵਿੱਚ ਕੋਈ ਸ਼ੱਕ ਨਹੀਂ ਹੈ ਕਿਉਂਕਿ ਭਾਰਤ ਦੀ ਪ੍ਰਭੂਸਤਾ ਲੋਕਾਂ ਦੁਆਰਾ, ਲੋਕਾਂ ਲਈ, ਲੋਕਾਂ ਦੀ, ਇਬਰਾਹੀਮ ਲਿੰਕਨ ਦੀ ਲੋਕਤੰਤਰੀ ਵਿਚਾਰਧਾਰਾ ਨਾਲ ਸਿਰਜੀ ਜਾਂਦੀ ਹੈ। ਭਾਰਤੀ ਸੰਵਿਧਾਨ, ਸਰਕਾਰ ਚਲਾਉਣ ਲਈ ਬਹੁਤ ਹੀ ਸਮਰੱਥ ਗ੍ਰੰਥ ਹੈ। ਜੇਕਰ ਭਾਰਤੀ ਲੋਕ ਮਨਾਂ ਦੀਆਂ ਭਿੰਨਤਾਵਾਂ ਜਿਵੇਂ- ਧਰਮ, ਨਸਲ, ਜਾਤ-ਪਾਤ, ਭਾਸ਼ਾਵਾਂ ਨੂੰ ਦੇਖਿਆ ਜਾਵੇ ਤਾਂ ਲੋਕਤੰਤਰ ਦੀ ਸਾਖ ਨੂੰ ਬਚਾਈ ਰੱਖਣਾ ਇੱਕ ਵੱਡੀ ਮਹਾਨਤਾ ਵਾਲੀ ਗੱਲ ਹੈ। ਇਹ ਕਥਨ ਆਦਰਸ਼ਕ ਹੈ। ਜੇਕਰ ਹਕੀਕਤ ਦੇ ਝਰੋਖੇ ਵਿੱਚੋਂ ਦੇਖਿਆ ਜਾਵੇ ਤਾਂ ਇਥੇ ਲੱਗਦਾ ਹੈ ਕਿ ਹਾਥੀ ਦੇ ਦੰਦ ਦਿਖਾਉਣ ਲਈ ਹੋਰ ਤੇ ਖਾਣ ਲਈ ਹੋਰ। ਇਸ ਲਈ ਲੋਕਤੰਤਰ ਤੰਤਰ ਨਹੀਂ ਮੰਤਰ ਬਣ ਕੇ ਹੀ ਰਹਿ ਗਿਆ ਹੈ। ਇਹ ਉਹ 'ਮੰਤਰ' ਹੈ ਜੋ ਸਿਆਸਤਦਾਨ, ਧਰਮ, ਭਾਸ਼ਾ, ਜਾਤ-ਪਾਤ ਦੇ ਨਾਮ' ਤੇ ਲੋਕਾਂ ਉੱਤੇ ਫੂਕਦੇ ਹਨ। ਇਸ ਕਰਕੇ ਜੇਕਰ ਲੋਕਤੰਤਰ ਨੂੰ ਮੰਤਰ ਤੋਂ ਮੁਕਤ ਕਰਨਾ ਹੈ ਤਾਂ ਭਾਰਤ ਦੇ ਹਰ ਨਾਗਰਿਕ ਨੂੰ ਰਾਜਨੀਤੀ ਸ਼ਾਸਤਰ ਦਾ ਗਿਆਨ ਹੋਣਾ ਚਾਹੀਦਾ ਹੈ ਤਾਂ ਜੋ ਭਾਰਤ ਦੇਸ਼ ਦਾ ਸੰਸਾਰ-ਪ੍ਰਸਿੱਧ ਮਾਣ-ਮੱਤਾ ਲੋਕਤੰਤਰ ਸਹੀ ਦਿਸ਼ਾਵਾਂ ਵੱਲ ਜਾ ਸਕੇ।

ਰੰਗਲਾ ਪੰਜਾਬ

ਰੰਗਲਾ ਪੰਜਾਬ ਸਾਰਾ ਫਿੱਕਾ ਪੈ ਗਿਆ,
ਪੰਜਾਬੀਆਂ ਦੇ ਰੰਗ ਸਾਰੇ, ਨਸ਼ਾ ਲੈ ਗਿਆ।
ਰੁਲ ਗਈ ਜਵਾਨੀ, ਦੁੱਧ ਮੱਖਣਾ ਨਾਲ ਪਾਲੀ,
ਲਾਲ ਚਿਹਰਿਆਂ ਦਾ ਰੰਗ ਚਿੱਟਾ ਪੈ ਗਿਆ।
ਹਨ੍ਹੇਰੀ ਨਸ਼ਿਆਂ ਦੀ ਕਰਕੇ ਅਟੈਕ ਬੈਠ ਗਈ,
ਜੇਬਾਂ ਸਾਰੀਆਂ 'ਚ ਨਾਗਣੀ ਬਲੈਕ ਬੈਠ ਗਈ।
ਚਿੱਟੇ ਨਸ਼ੇ ਨਾਲ ਗੁਲਾਬ ਦਾ ਹੈ ਫੁੱਲ ਮੁਰਝਾਇਆ,
ਜਿਹਦੇ ਜੜ੍ਹਾਂ ਵਿੱਚ ਚੰਦਰੀ ਸਮੇਕ ਬੈਠ ਗਈ।
ਜਨਤਾਂ ਵਿੱਚ ਨਸ਼ਾ, ਸ਼ਰੇਆਮ ਵਿਕਦਾ,
ਬਿਨਾਂ ਨਸ਼ੇ ਗੱਭਰੂ ਕੋਈ ਨਾ ਟਿੱਕਦਾ।
ਲੱਗੀ ਰਹਿੰਦੀ ਭੀੜ ਨਿੱਤ ਠੇਕਿਆਂ ਦੇ ਉੱਤੇ,
ਕੋਈ ਖੇਡ ਦੇ ਮੈਦਾਨ ਵਿੱਚ ਵਿਰਲਾ ਹੀ ਦਿਖਦਾ।
ਨਸ਼ਿਆਂ 'ਚ ਕਿਉਂ ਜਵਾਨੀ ਗਾਲੀਏ,
ਪਿੰਡਾਂ ਅਤੇ ਸ਼ਹਿਰਾਂ ਚੋਂ ਖਿਡਾਰੀ ਭਾਲੀਏ।
ਨਵਾਂ ਕਰਕੇ ਅਗਾਜ਼
ਅਸੀਂ ਚੁੱਕਾਂਗੇ ਅਵਾਜ਼,

ਬੁਝਾ ਕੇ ਆਪਣੇ ਦੀਵਿਆਂ ਨੂੰ,

ਸਫਲਤਾ ਦਾ ਰਾਜ

ਇੱਕ ਪਿੰਡ ਵਿੱਚ ਇੱਕ ਸਾਧੂ ਰਹਿੰਦਾ ਸੀ। ਜਦੋਂ ਵੀ ਉਹ ਨੱਚਦਾ ਤਾਂ ਬਾਰਸ਼ ਜ਼ਰੂਰ ਹੁੰਦੀ। ਲੋੜ ਅਨੁਸਾਰ ਪਿੰਡ ਦੇ ਕਿਸਾਨ ਉਸਨੂੰ ਬੇਨਤੀ ਕਰਦੇ ਤਾਂ ਫਸਲਾਂ ਸੁੱਕਣ ਤੋਂ ਬਚ ਜਾਂਦੀਆਂ। ਕਾਫੀ ਸਮਾਂ ਇਸੇ ਤਰ੍ਹਾਂ ਚੱਲਦਾ ਰਿਹਾ। ਇਹ ਗੱਲ ਕੁੱਝ ਕਾਲਜ ਪੜ੍ਹਨ ਵਾਲੇ ਮੁੰਡਿਆਂ ਨੂੰ ਪਤਾ ਲੱਗੀ ਤਾਂ ਉਹ ਇਹ ਚਮਤਕਾਰ ਦੇਖਣ ਲਈ ਪਿੰਡ ਆ ਗਏ। ਉਹ ਸਾਧੂ ਨੂੰ ਮੱਥੇ ਲਾ ਕੇ ਬੇਨਤੀ ਕਰਦੇ ਤੇ ਕਹਿਣ ਲੱਗੇ ਅਸੀਂ ਵੀ ਨੱਚ ਕੇ ਬਾਰਸ਼ ਲਿਆ ਸਕਦੇ ਹਾਂ। ਉਨ੍ਹਾਂ ਨੇ ਨੱਚਣਾ ਸ਼ੁਰੂ ਕਰ ਦਿੱਤਾ। ਬਾਰਸ਼ ਤਾਂ ਕੀ ਕਿਤੇ ਬੱਦਲ ਵੀ ਨਜ਼ਰ ਨਹੀਂ ਆ ਰਹੇ ਸਨ। ਨੌਜਵਾਨ ਲਗਾਤਾਰ ਨੱਚਦੇ ਰਹੇ, ਪਰ ਬੱਦਲ ਹਾਰ ਕੇ ਰੁਕ ਗਏ। ਕਿੱਧਰੇ ਵੀ ਬਾਰਸ਼ ਨਾ ਹੋਈ। ਫਿਰ ਉਨ੍ਹਾਂ ਨੇ ਸਾਧੂ ਨੂੰ ਬੇਨਤੀ ਕੀਤੀ। ਸਾਧੂ ਨੇ ਉਨ੍ਹਾਂ ਦੀ ਬੇਨਤੀ ਸਵੀਕਾਰ ਕਰਕੇ ਨੱਚਣਾ ਸ਼ੁਰੂ ਕਰ ਦਿੱਤਾ। ਸਾਧੂ ਕਾਫੀ ਸਮੇਂ ਤੱਕ ਨੱਚਦਾ ਰਿਹਾ ਪਰ ਬਾਰਸ਼ ਦਾ ਨਾ ਨਿਸ਼ਾਨ ਵੀ ਨਹੀਂ ਸੀ। ਸਾਧੂ ਲਗਾਤਾਰ ਨੱਚਦਾ ਰਿਹਾ। ਦੂਸਰੇ ਦਿਨ ਬਾਰਸ਼ ਆ ਗਈ। ਇਹ ਦੇਖ ਕੇ ਨੌਜਵਾਨ ਹੈਰਾਨ ਹੋ ਗਏ ਅਤੇ ਸਾਧੂ ਨੂੰ ਪੁੱਛਣ ਲੱਗੇ ਇਹ ਚਮਤਕਾਰ ਕਿਸ ਤਰ੍ਹਾਂ ਹੋ ਗਿਆ। ਸਾਧੂ ਨੇ ਕਿਹਾ ਇਹ ਚਮਤਕਾਰ ਨਹੀਂ। ਜਦੋਂ ਮੈਂ ਨੱਚਦਾ ਹਾਂ ਤਾਂ ਦੋ ਗੱਲਾਂ ਦਾ ਧਿਆਨ ਰੱਖਦਾ ਹਾਂ। ਮੈਂ ਇਹ ਸੋਚਦਾ ਹਾਂ ਕਿ ਜਦੋਂ ਮੈਂ ਨੱਚਦਾ ਹਾਂ ਤਾਂ ਬਾਰਸ਼ ਨੂੰ ਆਉਣਾ ਹੀ ਪਵੇਗਾ। ਦੂਜੀ ਗੱਲ ਇਹ ਹੈ ਕਿ ਮੈਂ ਉਸ ਵੇਲੇ ਤੱਕ ਨੱਚਦਾ ਹਾਂ ਜਦੋਂ ਤੱਕ ਬਾਰਸ਼ ਨਾ ਆ ਜਾਵੇ। ਇਹ ਵਿਸ਼ਵਾਸ ਦੀ ਗੱਲ ਹੈ ਕਿ ਸਾਡੇ ਵਿਸ਼ਵਾਸ ਹੀ ਸਾਨੂੰ ਚਮਤਕਾਰ ਲੱਗਦੇ ਹਨ। ਇਸ ਕਰਕੇ ਖੁਦ 'ਤੇ ਵਿਸ਼ਵਾਸ ਰੱਖੋ ਸਫਲਤਾ ਜ਼ਰੂਰ ਮਿਲੇਗੀ। ਸਫਲਤਾ ਦੇ ਇਸ ਰਾਜ ਦੇ ਸਬਕ ਨੂੰ ਲੈ ਕੇ ਨੌਜਵਾਨਾਂ ਨੇ ਆਪਣੀ ਪੜ੍ਹਾਈ ਸ਼ੁਰੂ ਕਰ ਕੀਤੀ।

हिन्दी भाषा का इतिहास लगभग एक हजार वर्ष पुराना माना गया है। इसे राष्ट्रभाषा घोषित किया गया है। किसी भी स्वतंत्र राष्ट्र की अपनी एक भाषा होती है। उसी तरह हिन्दी एक ऐसी भाषा है जिसने पूरे देश को एक सूत्र में बाँधा हुआ है। आज कोई भी ऐसा राज्य नहीं, जो हिन्दी को महत्व न देता हो। हमारे ग्रंथ भी हिन्दी में लिखे गए ताकि हमें अपनी संस्कृति का ज्ञान आसानी से हो पाए। इसलिए हमारा कर्तव्य बनता है कि हमें अपनी राष्ट्रभाषा को पूरा सम्मान देना चाहिए।

हिन्दी मेरी भाषा है,
हिन्दी मेरी आशा है।
हिन्दी का उत्थान करना,
यह मेरी जिज्ञासा है।
हिन्दी की बोली अनमोल,

हमारी राष्ट्र भाषा: हिन्दी

भाषा के द्वारा मनुष्य अपने विचारों का आदान-प्रदान करते हैं। अपनी बात को कहने से लेकर दूसरों की बात को समझने तक भाषा का प्रयोग किया जाता है।

जब मनुष्य इस पृथ्वी पर आकर होश संभालता है, तब उसके माता-पिता उसे अपनी भाषा में बोलना सिखाते हैं। प्रत्येक राष्ट्र की अपनी-अपनी भाषाएँ होती हैं। लेकिन उनका राज-कार्य जिस भाषा में होता है और जो जन सम्पर्क की भाषा होती है उसे ही राष्ट्र-भाषा का दर्जा प्राप्त होता है।

भारत में अनेक राज्य हैं। उन राज्यों की अपनी-अपनी अलग-अलग भाषाएँ हैं। इस प्रकार भारत एक बहुभाषी राष्ट्र है लेकिन उसकी अपनी एक राष्ट्रभाषा है हिंदी। 14 सितंबर, 1949 को हिन्दी को यह गौरव प्राप्त हुआ। 26 जनवरी, 1950 को भारत का अपना संविधान बना। हिंदी को राजभाषा का दर्जा प्राप्त हुआ। यह माना गया कि धीरे-धीरे हिंदी अंग्रेजी का स्थान लेगी और अंग्रेजी पर हिन्दी का प्रभुत्व होगा।

आज़ादी के इतने वर्षों बाद भी हिन्दी को जो गौरवपूर्ण स्थान प्राप्त होना चाहिए था वह उसे नहीं मिला। अब प्रश्न यह उत्पन्न होता है कि हिन्दी को उस का यह पद कैसे दिलाया जाए? कौन से ऐसे उपाय किए जाएँ, जिससे हम अपने लक्ष्य तक पहुँच सकें।

यद्यपि हमारी राष्ट्रभाषा हिन्दी है, परन्तु हमारा चिंतन आज भी विदेशी है। हम वार्तालाप करते समय अंग्रेजी का प्रयोग करने में गौरव समझते हैं, भले ही अशुद्ध अंग्रेजी हो। हमें इस मानसिकता का परित्याग, करना चाहिए और हिन्दी का प्रयोग करने में गर्व अनुभव करना चाहिए। हम सरकारी कार्यालयों, बैंक अथवा जहाँ भी कार्य करते हैं, हमें हिन्दी में ही कार्य करना चाहिए।

निमन्त्रण-पत्र, नामपट्ट हिन्दी में होने चाहिए। अदालतों का कार्य हिन्दी में होना चाहिए। बिजली, पानी, गृह कर आदि के बिल जनता को हिन्दी में दिये जाने चाहिए। इससे हिन्दी का प्रचार और प्रसार होगा। प्राथमिक स्तर से स्नातक तक हिन्दी अनिवार्य विषय के रूप में पढ़ाई जानी चाहिए।

जब विश्व के अन्य देश अपनी मातृ भाषा में पढ़कर उन्नति कर सकते हैं, तब हमें राष्ट्रभाषा अपनाने में झिझक क्यों होनी चाहिए। राष्ट्रभाषा और अन्तर्राष्ट्रीय स्तर पर पत्र व्यवहार हिन्दी में होना चाहिए। स्कूल के विद्यार्थियों को हिन्दी पत्र-पत्रिकाएँ पढ़ने की प्रेरणा देनी चाहिए। जब हमारे विद्यार्थी हिन्दी प्रेमी बन जायेंगे, तब हिन्दी का धारावाहक प्रसार होगा।

संतुलित खुराक

कहा गया है कि स्वस्थ शरीर में ही स्वस्थ मस्तिष्क निवास करता है। स्वस्थ शरीर व्यायाम करने और संतुलित खुराक लेकर पाया जा सकता है। आजकल लोग स्वस्थ शरीर पाने के लिए व्यायाम तो करते हैं लेकिन संतुलित खुराक नहीं लेते। इस प्रकार वे स्वस्थ शरीर न पाने के बदले बीमारियाँ पाते हैं। संतुलित खुराक हर जीव के लिए जरूरी है। पहले समय में लोग संतुलित खुराक खाने के साथ-साथ व्यायाम भी करते थे और स्वस्थ और निरोगी काया पाते थे। लेकिन आजकल लोग खुराक तो खाते ही हैं परन्तु व्यायाम नहीं करते। संतुलित खुराक लेकर हमारी काया निरोग और स्वस्थ रह सकती है। संतुलित खुराक से शरीर स्वस्थ और निरोग ही नहीं, बल्कि चेहरे पर चमक का भी साधन है।

हमारा राष्ट्रीय ध्वज

हर देश की आन-बान और शान होता है उसका राष्ट्रीय ध्वज। हमारा राष्ट्रीय ध्वज है तिरंगा। जब यह आकाश में लहराता है तो गर्व से हमारा दिल फूल उठता है। पहली बार 15 अगस्त, 1947 को पं. जवाहर लाल नेहरू ने इसे लाल किले पर फहराया था। स्वतंत्रता दिवस और गणतंत्र दिवस पर इसे हर समारोह में फहराया जाता है और सलामी दी जाती है। यह हमारे देश की अनेकता में एकता को दर्शाता है। सबसे ऊपरी पट्टी केसरिया रंग की है। यह रंग हमारी वीरता और बलिदान की भावना का प्रतीक है। बीच की पट्टी का श्वेत रंग हमारी शांतिप्रियता को दर्शाता है। सबसे नीचे की हरी पट्टी हमारी सुख-समृद्धि की प्रतीक है। इस चक्र में चौबीस तीलियाँ हैं। यह 'धर्म चक्र' है जो हमें चौबीस घंटे धर्म और कर्म के मार्ग पर चलने की प्रेरणा देता है। अपने तिरंगे की रक्षा के लिए हम सब भारतीय अपने प्राण तक न्योछावर करने को तैयार रहते हैं।

नशीली दवाइयों के सेवन पर निबंध

हमारे युवाओं में नशीले पदार्थों की लत बहुत आम बात है। शायद युवाओं को यह जीवन बहुत भारी लगता है। इससे बचने के लिए वे ड्रग्स लेते हैं। कभी-कभी माता-पिता स्वयं इसका कारण बन जाते हैं। या तो वे बहुत सख्त हैं या उनके पास बच्चों में भाग लेने के लिए कोई समय नहीं है। युवाओं को अपेक्षित महसूस होता है। शिक्षा की हमारी असाधारण व्यवस्था भी बड़ी वजहों में से एक है। जब युवाओं को 15-20 साल की शिक्षा के बाद कोई रोजगार पाने में असफलता होती है, तो वे निराश हो जाते हैं और नशीली दवाइयाँ लेने लगते हैं। नशीली दवाइयों की लत एक बड़ी सामाजिक समस्या बन गई है। नशीली दवाओं के दुरुपयोग के लिए कोई शॉर्टकट इलाज नहीं है। हम अक्सर शिकायत करते हैं कि हमारे युवा गलत हो रहे हैं। लेकिन, हम अपनी समस्याओं को समझने के लिए शायद ही कुछ भी करते हैं। हमारे युवाओं को ड्रग्स से दूर रखने का सबसे अच्छा तरीका उनकी ऊर्जा का उपयोग रचनात्मक तरीके से करना है। एक रोजगार आधारित शिक्षा प्रणाली विकसित की जानी चाहिए।

खेलों का महत्त्व

मनुष्य के लिए अच्छे स्वास्थ्य का होना अत्यंत आवश्यक है। एक स्वस्थ शरीर में ही स्वस्थ मस्तिष्क होता है। दूसरे शब्दों में स्वस्थ मस्तिष्क के लिए स्वस्थ शरीर का होना अनिवार्य है। रुग्ण शरीर, रुग्ण मानसिकता को जन्म देता है। वैदिक काल से ही हमारे पूर्वजों ने 'निरोगी काया' अर्थात् स्वस्थ शरीर को प्रमुख सुख माना है। खेल अथवा व्यायाम स्वस्थ शरीर के लिए अति आवश्यक हैं अर्थात् शरीर को स्वस्थ रखने के लिए खेल अथवा व्यायाम की उतनी ही आवश्यकता है जितनी की जीवन को जीने के लिए भोजन व पानी की। हमारे देश में योगासन, दंड बैठक, दौड़ना, कुश्ती, तैराकी आदि खेलें व्यायाम का ही एक रूप हैं। अतः मनुष्य के सर्वांगीण विकास के लिए अनिवार्य है कि हम खेल और शिक्षा दोनों को ही बराबर महत्त्व दें।

परिश्रम का महत्त्व

परिश्रम ही सफलता की कुंजी है। जो भाग्य के भरोसे बैठे रहते हैं, वे जीवन में कुछ भी प्राप्त नहीं कर पाते। जो प्रयत्न करते हैं वे अपने दुर्भाग्य को भी सौभाग्य में बदल देते हैं। अमेरिका के राष्ट्रपति अब्राहम लिंकन एक गरीब लकड़हारे के परिवार में पैदा हुए। उनके पास स्कूल जाने या किताबें खरीदने के लिए भी पैसे नहीं थे। वे आठ कोस पैदल चलकर उस व्यक्ति के घर जाते थे, जिसने अपने पुस्तकालय में बैठकर पुस्तकें पढ़ने की उन्हें अनुमति दे रखी थी। सारा दिन लकड़ी काटने के बाद संध्या को पुस्तकें पढ़ना, मीलों पैदल जाना-आना, इसी परिश्रम ने उन्हें कुंदन-सा चमका दिया। व्यक्ति परिश्रम करे तो वह सब कुछ पा सकता है, जो वह पाना चाहता है और यदि आलसी हो तो वह सब खो सकता है, जो उसे प्राप्त हो चुका है। इसलिए हमारे ऋषि-मुनियों ने कहा- "चरैवति, चरैवति" अर्थात् 'चलते रहो, चलते रहो।' जो बैठ गया, उसका भाग्य भी बैठ गया।

हिन्दी का महत्त्व

हिंदी शब्द का संबंध संस्कृत शब्द सिन्धु से माना जाता है। 'सिन्धु' सिन्धु नदी को कहते थे और उसी आधार पर उसके आस-पास की भूमि को सिन्धु कहने लगे। कहते हैं, ईरान की प्राचीन भाषा अवेस्ता में 'स्' ध्वनि नहीं बोली जाती थी। 'स' को 'ह' रूप में बोला जाता था। जैसे संस्कृत के 'असुर' को वहाँ 'अहुर' कहा जाता था। अफ़ग़ानिस्तान के बाद सिंधु नदी के इस पार हिन्दुस्तान के पूरे इलाके को प्राचीन फ़ारसी साहित्य में भी 'हिन्दू', 'हिन्दुश' के नामों से जाना जाता है। मान्यता है कि यह सिंधु शब्द भी ईरानी में जाकर 'हिन्दू', हिंदी और फिर 'हिन्द' हो गया। अरबी एवं फ़ारसी साहित्य में भारत (हिन्द) में बोली जाने वाली भाषाओं के लिए 'जबान-ए-हिंदी', पद का उपयोग हुआ है। भारत आने के बाद अरबी-फ़ारसी बोलने वाले ने 'जबान-ए-हिंदी', 'हिंदी जुबान' अथवा 'हिंदी' का प्रयोग दिल्ली-आगरा के चारों ओर बोली जाने वाली भाषा के अर्थ में किया। बाद में इसी क्षेत्र को खड़ी बोली हिंदी का क्षेत्र कहा गया। हिंदी हिन्द-यूरोपीय भाषा परिवार के अन्दर आती है। ये हिन्द ईरानी शाखा की हिन्द आर्य उपशाखा के अन्तर्गत वर्गीकृत है।

समय का महत्त्व

दार्शनिकों ने जीवन को क्षणभंगुर कहा है। इसकी तुलना प्रभात के तारे और पानी के बुलबुले से की गई है। अतः यह प्रश्न उठना स्वाभाविक है कि हम अपने जीवन को सफल कैसे बनाएँ। इसका एकमात्र उपाय समय का सदुपयोग है। समय एक अमूल्य वस्तु है। खोया समय पुनः नहीं मिलता। हमारे जीवन की सफलता-असफलता समय के सदुपयोग तथा दुरुपयोग पर निर्भर करती है। कहा भी गया है- “समय को क्षत्र न समझो भाई, यह जग का निर्माता है।” समय के सदुपयोग से ही जीवन का पथ सरल हो जाता है। महान व्यक्तियों के महान बनने का रहस्य समय का सदुपयोग ही है। समय के सदुपयोग के द्वारा ही मनुष्य अमर कीर्ति का पात्र बन सकता है। समय का सदुपयोग ही जीवन का सदुपयोग है। इसी में जीवन की सार्थकता है-

“कल करै सो आज कर,
आज करै सो अब।
पल में परलै होयगी,
बहुरि करौगे कब।”

अनुशासन का महत्त्व

अनुशासन का अर्थ होता है नियमों का सही पालन करना। हर इंसान के जीवन में अनुशासन का विशेष महत्त्व है। जो इंसान अनुशासन में नहीं रह सकता वह जीवन का निर्माण कभी नहीं कर सकता। अनुशासन एक ऐसा गुण है जिसकी मनुष्य के जीवन में जरूरत पड़ती है। घर-परिवार में अनुशासन का बड़ा महत्त्व है, बड़ों का आदर करना छोटों से प्यार करना परिवार के अनुशासन के अभिन्न अंग है। सूर्य और चंद्रमा समय पर निकलते हैं और समय पर ही डूबते हैं समय पर ही त्रुटि आती है। हमें अपनी कुदरत से शिक्षा लेनी चाहिए। इसलिए समाज के कल्याण के लिए जिंदगी में अनुशासन का विशेष महत्त्व है अनुशासन से ही मनुष्य का पूर्ण विकास संभव है इसलिए इससे भागने की जगह इसका पालन करना सीखें।

यमराज : चित्रगुप्त एक ऐसी मशीन बनाओ कि जब कोई झूठ बोले तो हमें पता चल जाए.....।

चित्रगुप्त : ठीक है प्रभु.....!!

चित्रगुप्त ने एक ऐसा घंटा बनाया जो झूठ बोलने पर बजता था

दूसरे दिन वह थोड़ी-थोड़ी देर में बजने लगा और वह उन्हें पकड़ लेते थे.....।

एक दिन तो वह बहुत जोर-जोर से बजने लगा.....!!

यमराज ने चित्रगुप्त को आवाजे लगाई और पूछा “यह घंटा इतनी जोर से क्यों बजा।”

चित्रगुप्त ने कहा जरूर यह कोई नेता भाषण दे रहा होगा।

कहानी- राजे की अंगूठी

एक दिन भरे दरबार में एक राजे ने अपनी अंगूठी को खो दिया। जैसे ही राजा को यह बात पता चली, उन्होंने सिपाहियों से ढूँढने को कहा पर वह नहीं मिली।

राजा ने अपने वजीर से दुखी मन से बताया कि वह अंगूठी उनके पिता की अमानत थी, जिससे वो बहुत प्यार करते थे। वजीर ने जवाब में कहा। आप चिंता न करें महाराज, मैं अंगूठी ढूँढ लूँगा।

वजीर ने दरबार में बैठे लोगों की तरफ देखा और राजा से कहा, "महाराज चोरी इन्हीं में से किसी ने की है। मेरे पास एक ऐसा यंत्र है जिससे यह पता चलता कि चोरी किसने की है।" यह बात सुन कर ही चोर घबरा जाता है और वहाँ से भागने की कोशिश करता है। लेकिन उसी वक्त सिपाही उसे पकड़ लेते हैं और दरबार में सबके सामने लाते हैं। चोरी की अंगूठी उस के पास से मिल जाती है और सिपाही उसे पकड़ कर जेल में बंद कर देते हैं। राजा को अपनी अंगूठी मिल जाती है और वह बहुत खुश हो जाता है।

एक बार एक व्यक्ति, एक हाथी को रस्सी से बांध कर ले जा रहा था। एक दूसरा व्यक्ति इसे देख रहा था। उसे बड़ा आश्चर्य हुआ कि इतना बड़ा जानवर इस हल्की सी रस्सी से बंधा जा रहा है। दूसरे व्यक्ति ने हाथी के मालिक से पूछा यह कैसे संभव है कि इतना बड़ा जानवर एक हल्की सी रस्सी को नहीं तोड़ पा रहा है और तुम्हारे पीछे-पीछे चल रहा है।

हाथी के मालिक ने बताया, जब ये हाथी छोटे होते हैं तो इन्हें रस्सी से बांध दिया जाता है उस समय यह कोशिश करते हैं रस्सी को तोड़ने की पर उसे तोड़ नहीं पाते। बार-बार कोशिश करने पर भी यह उस रस्सी को नहीं तोड़ पाते तो हाथी सोच लेते हैं कि वह इस रस्सी को नहीं तोड़ सकते और बड़े होने पर कोशिश करना ही छोड़ देते हैं।

कहानी- हम सबके भीतर महानतम, श्रेष्ठतम बनने की संभावनाएँ हैं।

एक मंदिर बन रहा था। देश भर से आए शिल्पी पत्थरों पर छैनी से काम कर रहे थे। एक पत्थर कारीगरों के मुखिया ने बेकार समझकर फेंक दिया। रास्ते में पड़ा वह पत्थर मजदूर-राहगीरों की ठोकरें खाता, इधर-उधर होता व उदास मन से देखता रहता कि और तो सँवरकर मूर्ति का रूप लेकर निखर रहे हैं। मैं अभाग्य पैरों के नीचे दबाया जा रहा हूँ।

एक दिन एक राज कलाकार उधर से गुजरता है। उसने वह बेकार पड़ा पत्थर उठाया, छैनी चलानी शुरू कर दी। देखते-देखते कुछ ही घंटों में एक सुंदर-सी मूर्ति तराशकर खड़ी कर दी। सबने उसकी प्रशंसा की कि वह बड़ा प्रतिभाशाली है। एक राह के रोड़े को रूपांतरित कर दिया। कलाकार बोला- मैं तो औरों की तरह ही हूँ। जो पत्थर में से प्रकट किया है, वह था पत्थर के अंदर ही। मैंने तो मात्र पहचाना, व उखेड़ा है।

हम सबके भीतर महानतम, श्रेष्ठतम बनने की संभावनाएँ हैं। कभी-कभी जीवन को गढ़ने वाला कोई कलाकार, गुरु, मार्गदर्शक मिल जाता है तो हम क्या से क्या बन जाते हैं। सौभाग्य का यह अवसर सबके लिए समान रूप से है।

कहानी:- एक कहानी इनकी भी:- रानी चेन्नम्मा

उत्तर भारत में जो स्थान झाँसी की रानी लक्ष्मीबाई का है, कर्नाटक में वही स्थान कित्तूर की रानी चेन्नम्मा का है। रानी चेन्नम्मा रानी लक्ष्मीबाई से पहले ही अंग्रेजों को चुनौती दे चुकी थी। बचपन से ही चेन्नम्मा घुड़सवारी, अस्त्र-शस्त्र और युद्ध-विद्या में प्रवीण थी। चेन्नम्मा का विवाह कित्तूर के राजा मल्लसर्ज के साथ हुआ था। पति व पुत्र की अकाल मृत्यु के बाद राज्य की सारी जिम्मेदारी रानी चेन्नम्मा पर आ गई। कित्तूर पर अंग्रेजों की कुदृष्टि काफी समय से थी, क्योंकि यहाँ हीरे-जवाहरात के बाज़ार लगा करते थे। अक्सर मिलते ही धारवाड़ के कलेक्टर ने पाँच सौ सिपाहियों के साथ कित्तूर का किला घेर लिया। रानी ने समस्त प्रजा को आश्वस्त किया कि वह अंतिम साँस तक अंग्रेजों से लड़ेगी। रानी का हौंसला देख प्रजा आश्वस्त हो गई। 23 सितंबर, 1824 का दिन था। किले के फाटक बंद थे। कलेक्टर थैकरे ने रानी को आत्मसमर्पण की चेतावनी दी। इतने में ही अचानक किले के फाटक खुले और दो हजार देशभक्तों की अपनी सेना लेकर रानी मदन वेश में अंग्रेजों की सेना पर टूट पड़ी। 3 दिसंबर, 1924 को अंग्रेजों को एक बार भी मुँह की खानी पड़ी। दो दिन बाद वे फिर दुगुनी शक्ति के साथ किले पर टूट पड़े। राज्य छोटा था और बहुत सारे देशभक्त पहले ही वीरगति को प्राप्त हो चुके थे। बचे हुए बलिदानियों ने निडरता से अंग्रेजों का सामना किया, परंतु इस बार वे टिक नहीं सके। रानी चेन्नम्मा को बंदी बना लिया गया। रानी चेन्नम्मा के अपूर्व शौर्य और देश-प्रेम के कारण न केवल कर्नाटक वरन् देशभर में उन्हें विशेष सम्मान हासिल है।

[चिड़िया की परेशानी]

एक चिड़िया थी वह बहुत ऊँचा उड़ती, इधर-उधर चहचहाती रहती। कभी इस टहनी पर कभी उस टहनी पर फुदकती रहती। पर इस चिड़िया की एक आदत थी वह जो भी दिन में उसके साथ होता अच्छा या बुरा उतने पत्थर अपने पास पोटली में रख लेती और अक्सर उन पत्थरों को पोटली से निकाल कर देखती। अच्छे पत्थरों को देखकर बीते दिनों में हुई अच्छी बातों को याद करके खुश होती और खराब पत्थरों को इकट्ठा करने से उसकी पोटली दिन प्रतिदिन भारी होती जा रहे थी। थोड़े दिन बाद उसे भारी पोटली के साथ उड़ने में दिक्कत होने लगी। पर उसे समझ नहीं आ रही था कि वह उड़ क्यों नहीं पा रही थी।

कुछ समय और बीता, पोटली और भारी होती जा रही थी। अब तो उसका जमीन पर चलना भी मुश्किल हो रहा था। और एक दिन ऐसा आया कि वह अपने खाने पीने का इंतजाम भी नहीं कर पाई और अपने पत्थरों के बोझ तले मर गयी।

शिक्षा:- दोस्तो ऐसा ही हमारे साथ होता है जब हम पुरानी बातों की पोटली अपने साथ रखते हैं। अपने वर्तमान का आनंद लेने की जगह भूतकाल की बातों को ही सोचने में लगे रहते हैं। इस पल का आनंद लीजिए।

NEIL DE GRASSE TYSON

Doaba Public Senior Secondary School being the abode of knowledge having a store house of unimagined treasures promises the all round development to its students by providing them quality education. I am really proud and exuberant to acclaim that we are ready with all new hopes and hues to bring out the magazine in our hands, which is going to surely unfold the unraveled world of the most unforgettable and precious moments of the school.

The magazine is to be viewed as a launch pad for the children's creation which urges to blossom naturally. Our student authors have put across some amazing pieces of writing displaying their creative thinking and writing skills. The works included in this edition are extremely simple but will surely provide an opportunity to peep into a child's thought process and his or her axiomatic creative thinking. It is actually a lovely experience to see these enthusiastic writers voicing their feelings through different write ups.

Mr. VIPAN KUMAR

"Imagination is more important than knowledge, knowledge is limited; Imagination encircles the world."

Science is a systematic enterprise that builds and organizes knowledge in the form of testable explanations and predictions about the universe. The earliest root of science can be traced to Ancient Egypt and Mesopotamia in around 3500 to 3000 BC. Modern science is typically divided into three major branches that consist of the Natural Sciences, the Social Sciences and the Formal Sciences. Science has led us to find out things that give us what we have today. In fact without Science we would not have electricity which would mean no mobiles, internet, fridges, television, cars etc.

This magazine has been a step towards creative thinking and it has served as a great platform to vent out student's passion for writing. Our student authors have put across some amazing pieces of writing displaying their creative thinking.

I am thankful to all the blooming writers who have responded to my call and penned their ideas for school magazine.

TIMELINE OF LIFE

Life has existed on planet Earth for 3.8 billion years. Over that time, it has evolved into a dazzling diversity of forms, from microscopic bacteria to giant dinosaurs. For most of Earth's long history, the only living things were single-celled microbes that lived in the oceans. But around 600 million years ago, the first multicellular animals appeared. This led to an evolutionary explosion of complex oceanic life forms during the Cambrian period. And once the first simple plants had evolved, life was able to colonize the continents as well as the oceans.

THE BIG BANG THEORY

The big bang theory is a prevailing cosmological model for the observable universe from the earliest known periods. It describes how the universe expanded from a very high density and high temperature state, and offers a comprehensive explanation for a broad range of phenomenon, including the abundance of light elements, the cosmic microwave background (CMB), large scale structures and Hubble's Law (the farther away galaxies are, the faster they are moving away from Earth).

The first subatomic particles to be formed included protons, neutrons and electrons. Through simple atomic nuclei formed within the first three minutes after the Big Bang, and after thousands of years, the first electrically neutral atoms were formed. Majority of them were hydrogen, helium and lithium. Giant clouds of these elements were formed. It is an interesting theory which tells about the formation of the great universe. Sudden expansion occurred which led to the 'birth' of this universe. Despite being very dense at this time, the universe did not recollapse into a black hole. (Approx) 10^{-37} seconds into the expansion, caused a cosmic inflation for the production of a 'quark-gluon plasma' as well as other elementary particles. At some point, an unknown reaction called 'baryogenesis', violated the conservation of baryon numbers. This resulted in the predominance of matter over antimatter in the present universe. A few minutes into the expansion the temperature was about a billion kelvin. After about 379000 years, the electrons and nucleus combined into atoms, which further formed stars and planets.

THE METHODS OF SCIENCE RAP

Science is my thing today.
When you do Science-here's the way.
First ask **questions**- why or how?
Then **hypothesize**- do it how?
Experimentation is next line.
You get results that are **SO** fine!
Analyzing data comes up next.
Then **graph** your data, to show it best.
Being a scientist- It's a trip!
It's not square-It's really hip!
The Science of today is the technology of tomorrow.

WHY DON'T WE FEEL EARTH'S ROTATION?

It should not come to you as a shock that our planet, with its atmosphere and everything on it is constantly spinning. At the equator at speed of 1675 kilometres per hour, which means you're travelling like 465 metres per second. But have you ever imagined that why don't we feel the motion of Earth?

The answer lies in the nature of Earth's motion. Our planet completes a full turn around its axis every 23 hours and 56 minutes, spinning incessantly at almost entirely constant rate. Similarly in an aeroplane we don't feel its motion while moving down the aisle. Because you, plane and everything inside it moves at same speed. This is also termed by Inertia of Rest. Earth spins so constantly because nothing is stopping it. The sun, all planets, moons and everything else is still spinning all because of inertia. But Earth is slowing down ever so slightly because of gravitational drag of moon. Earth's rotation is slowing down by two-thousands of a second everyday. But still it feels like nothing at all.

DIVERT POWER TO CHEST, JARVIS!

An arc reactor, as it is being theorised, works on fusion power of atoms. Such fusion works by using two kinds of hydrogen atoms i.e. deuterium and tritium along with containing the given mixture in a vessel. Fuel, as it becomes, is heated to temperatures in excess of 150 million °C, forming a hot plasma. The magnetic fields generated by Barium copper oxide super conducting coils are able to contain superhot plasma; hence allowing the arc reactor to be smaller in size, as well as much more efficient.

Older versions of arc reactor are governed by 'thermal law of unconventional energy' but this new theory basically states that nuclear energy is being directly converted into electrical energy, thus it won't be creating heat energy. While Tony Stark may have built that in a cave, with a bunch of scrap; but we are still figuring out the perfect elements for the desired fusion. I will try my best to bring humanity the best gift of arc reactor.

COMPANION ROBOTS

1. **iPal - Robots For Education** :- iPal smart AI for robots for children's education are displayed at the Avatar Mind booth at CES 2019 Consumer Electronics Show, at the Las Vegas Convention Centre in Las Vegas. iPal also makes education fun and appealing for children. It can talk, dance, tell stories, play games, encourage physical activity, and enable them to chat with friends, share videos, and safely connect to the Internet and Social media.
2. **Luka For Children** :- Luka, reading robots for children, at the Ling AI booth. It can read from a database that includes tens of thousands of picture book stories. It comes from Chinese Company Ling Technology that says it will have the product available by mid-year, at an affordable price of \$ 150. Some could argue that mom and dad should be in the room reading to their kids, but if this toy robot helps along the process of learning, we're all for it.
3. **Kiki- Children's Pet** :- Companion robot kiki is designed as a children's 'pet'. It learns human behaviour over time and can identify its surroundings, remember people and track an individual by moving its head. KiKi has cameras and facial recognition so it will learn who its owner is. The robot is designed by two former Google engineers, whose personality evolves according to how its owner treat it.

Lovot, which comes complete with cartoon eyes and fuzzy teddy bear arms, has been built to "nurture people's capacity to love" by demanding the affection of its owner. It waves its arms in the air, and will trail around adoringly behind its owner on wheels.

"DO YOU KNOW?"

There are interesting facts about science that you may not have known were true-until now.

A "When Scientists Didn't exist"

Before the 17th Century, Science and Scientists were not truly recognised. At first, people like the 17th Century genius Issac Newton were called natural philosophers, because there was no concept of the word, Scientists at the time."

B J

The only letter that doesn't appear on the periodic Table is J

C Expanding Cubes

An Ice Cubes takes up about a percent more volume than the water used to make it.

D The Temperature of Lightning

A lighthing strike can reach a temperature of 30,000°C or 54,000°F. About 400 people are hit by lightning each year.

E Rusty Mars

On Mars iron oxide forms a rust dust that floats in the atmosphere and creates a coating across much of the landscape.

F When Hot Water Freeze Over."

Hot water can freeze faster than cold water. However it does not always happen nor has science explained exactly why it can happen.

G Insect Sleep

Insect clearly rest at times and are aroused only by the strong stimuli: the heat of day, the darkness of night or

perhaps a sudden attack by a predator.

H That is Sharp'

Six elements account for 99% mass of human body oxygen, carbondioxide, hydrogen, nitrogen, calcium and phosphorus. The human body contains enough carbon for 9000 pencils.

I Everyone Your Relative

Every Human being has 99 percent of their DNA in common. A parent and child share 99.5 percent of the same DNA. and you have 98% of your DNA common with a chimpanzee.

J Mercury's not mooning about it

While the planet Mercury may resemble one own moon in many way. It has no moon of it own.

K Deadly Water

It is possible to die from drinking too much water. Intoxication and hyponatromia results when a dehydrated person drinks too much water.

With Global Warming, it's in
danger,

Let's save it by becoming a

With dying trees and animals,

Make green today and green

With melting snow, one day it will sink,
How can we save it, just think

Trees are precious, preserve them,
Water is a treasure, reserve it

Grow more trees, make Mother Earth green,
Reduce pollution and make her Queen....

EARLY EARTH

Earth was created from pieces of dust and rubble orbiting the young star that became the sun. These gradually clumped together to form a planet in a process called accretion. The process began slowly but, as the planet grew, its increasing gravity attracted more fragments of space rock. Eventually the whole mass melted, and the heavier iron and nickel in the molten rock sank towards the centre of the planet to form its core. The rest formed the thick, hot mantle and the relatively cool, thin, brittle crust. Made by nuclear fusion in giant exploding stars, heavy elements such as silicon and iron formed clouds of space dust and rock in the region of the galaxy where the sun was born

HOW CAN WE CONSERVE WATER

Only a small fraction of water available on the Earth is fit for use. The water in the oceans cannot be used directly. When the level of the ground water decreases drastically this can not be used any more. The total amount of water on earth remains the same but the water available for use is very limited. The number of people using water is increasing. More and more water is being used for producing food and by the industries. This is leading to shortage of water in many parts of world. Hence, it is very important that water is used carefully. We should take care not to waste water.

THE ANIMAL THAT CAN SURVIVE IN SPACE : TARDIGRADE

Tardigrade are eight legged microscopic creatures. They are often called water bears. They were discovered by Johann August in 1773. In September 2007, dehydrated tardigrades were taken into outer space on the FOTON-M3 Mission. The Scientists were surprised to see that most of them survived there by using a process called Desiccation (a state of extreme dryness). They curls up into a shell known as tun which is their dry protective. state During this, there is only 3% water in tardigrade's body. After this ESA experiment, Tardigrade became the first animal to survive in space.

WHY THE COLOR OF SKY IS BLUE?

Why is the sky blue?

The blue color of the sky is due to Rayleigh scattering. As light moves through the atmosphere, most of the longer wavelengths pass straight through little of the red, range and yellow light is affected by the air. Much of the shorter wavelength light is absorbed by the gas molecules. The absorbed blue light is then radiated in different directions. It gets scattered all around the sky. Whichever direction you look, some of this scattered blue light reaches you. Since you see the blue light from everywhere overhead, the sky looks blue. As you look closer to the horizon, The sky appears much paler in colour. To reach you, the scattered blue light must pass through more air. Some of it gets scattered away again in other direction. Less blue light reaches your eyes. The colour of the sky near the horizon appears paler or white.

ISRO LAUNCHES MILITARY SATELLITE 'GSAT-7A'

In a major boost to communication capabilities of defence forces, the communication satellite GSAT - 7A was launched by Indian Space Research Organisation (ISRO) on December 19, 2018. The satellite was launched on board GSLV - F11 from the second launch pad of Satish Dhawan Space Centre in Sriharikota, Andhra Pradesh. GSLV - F11 will inject GSAT-7A into a Geosynchronous Transfer Orbit (GTO). It is believed that the 2,250 - kilogram geostationary communication satellite will bolster defence forces capacities. GSAT 7A, which is the 35th Indian communication satellite built by ISRO, will provide communication capability to users in ku-band over the Indian region. GSAT - 7A spacecraft is configured on ISRO's standard I - 2000 kg (I-2 K) Bus. The satellite will be placed in its final Geostationary orbit (GEO) using on-board propulsion system. ISRO Chairman Mr.K.Sivan said that the second-stage propellant loading has been increased in vehicle from 37.5 tonnes to 40 tonnes, & cryogenic - stage propellant loading has been increased from 12 tonnes to 15 tonnes along with enhanced thrust value for the cryogenic stage. The satellite was placed in a 'super synchronous transfer orbit', a little over 19 minutes after launch to enhance its life, pegged at eight years.

GSLV -F11 is fourth - generation launch vehicle of ISRO with three stages. The four liquid strap-ons & a solid rocket motor at core form the first stage. The second stage is equipped with high - thrust engine using liquid fuel. The cryogenic upper stage forms the third & final stage of vehicle. The satellite, being dubbed as 'angry bird' by some, is likely to enhance the range of communication & also aid in aircraft to aircraft communication.

TOPIC:- WHY DO LEAVES CHANGE COLOUR IN AUTUMN

Plants make their own food. They take water from the ground through their roots. They take a gas called carbon dioxide from the air. They turn CO_2 and water into food and oxygen. Oxygen is a gas in the air that we need to breathe. Plants make their food using sunlight and chlorophyll. Chlorophyll gives leaves their green colour. Winter days are short and dry. Many plants stop making food and fall. The chlorophyll goes away, then we can see orange and yellow colours in leaves.

As I went near the tree,

Because I make your air pollution free

It does not give shelter to society.
As I pondered over nature's call,
A juicy apple on my lap did fall.

An apple a day, keeps the doctor away.
As a child, I heard them say.
So why then do we cut them dry?
I heard a voice within me cry.
Today, As I take my pledge,
To nurture greenery around my ledge,
I urge you friends to hold my hands,
Together let us take this stand.

FORMATION OF COAL AND PETROLEUM

Coal and petroleum have been found from biomass which has been subjected to various biological and geological processes. Coal is the remains of trees, ferns, and other plants that lived millions of years ago. These were crushed into the earth, perhaps by earthquake or volcanic eruptions. They were pressed down by layers of earth and rock. They slowly decayed into coal. Oil and gas are the remains of millions of tiny plants and animals that lived in the sea. When they died, their bodies sank to the sea bed and were covered by silt. Bacteria attacked the dead remains, turning them into oil and gas under the high pressures, they were being subjected to. Meanwhile the silt was slowly compressed into rock. The oil and gas seeped into the porous parts of the rock, and got trapped like water in a sponge.

WHY IS SCIENCE IMPORTANT??

Science is everywhere in today's world. It is part of our daily lives, from cooking and gardening, to recycling and comprehending the daily weather report, from reading a map and using a computer. Advances in technology and science are transforming our world at an incredible pace. Being "Science literate" will no longer be just an advantage but an absolute necessity. We can't escape from the significance of Science in our world. But not everyone understands that, or has been taught to think critically, or been provided with the tools to analyze and test a problem or situation.

GLOBAL WARMING

Global warming is a long term rise in the average temperature of the Earth's climate system, an aspect of climate change shown by temperature measurements and by multiple effects of the warming. The term commonly refers to the mainly human caused observed warming. Since pre industrial times and its projected continuation, though there were also much earlier periods of global warming. Many of the observed warming changes since the 1950s are unprecedented in the instrumental temperature record, and in historical and paleoclimate proxy records of climate change over thousands to millions of years.

OBJECTIVES OF SOCIAL SCIENCE

Social Science is a major category of academic discipline, concerned with society and relationship among individuals. Social Science basically gives knowledge about the world nation and society around us, through the help of other disciplines. Economics, political science, history law and geography can be considered as social science. The primary purpose of social studies is to help young ones to develop the ability to make reasonable decisions for public good as citizens of a culturally diverse and democratic society in a interdependent world by providing relevant information and knowledge skills. Learning social science helps students to understand human interaction. that occurred in the past, are occurring now and that are likely to occur in the future, This may help students develop and nurture values that will make it more likely that they will be able to determine what are right thing is and do it especially when doing the right thing is difficult. It is about decency, respect courage and honor.

Mrs. Ruhee Rana

SOCIAL SCIENCE

Social Science is a systematic study of society the various factors that have contributed to its evaluation. It has different spheres as Geography, History, Sociology, Economics etc. One can learn about the whole universe along with its dimensions. Our rich and diverse culture will be known with the study of our history. The circulation of money and the element affecting it are also studied in this.

This enhances the sphere of our study and our mental horizons towards the known and the unknown. The things, that lead to the evaluation and development of human race which the factors affecting it, are also studied in this.

Social Science enables a person about his kind. It helps a society to develop itself by knowing it all.

Not all children in India are lucky to enjoy their childhood. Many of them are forced to work under inhuman conditions where their miseries know no end. Children are continued to be exploited as cheap labour. It is because the authorities are unable to implement the laws meant to protect children.

Causes of child labour: Factors such as poverty, lack of social security, the increasing gap between the rich and the poor have adversely affected children more than any other group.

A widespread problem : Due to high poverty and poor schooling opportunities, child labour is quite prevalent in India. Child labour is found in rural as well as in Urban areas.

From the beginning, the seeds of conflicts have been impartially implanted in the roots of Pak-India Relations. These two nations never considered each other as their friends but remained and wanted to be foes. The relation between India and Pakistan have been influenced by a number of historical and political issues and is defined by the crucial partition of British India in 1947, the Kashmir dispute and the number of military conflicts fought between the two nations. In spite of all challenges, however, it is encouraging that the majority of people on both sides have a great desire to solve their issues amicably, visit each other's countries, exchange social functions and live amicably.

HISTORICAL BUILDINGS- HERITAGE OR BURDEN

Historical Buildings:- A historical building is generally considered to be a building or structure that has some kind of 'historical value' i.e people in the present are connected to it via past events in some way. A building may hold special historical interest because of its importance with respect to a particular historical event or period, or be associated with nationally important people.

Hertiage or Burden:- In recent times, the issue of whether old buildings should be demolished and replaced has long a controversial issue.

- * Some believe that preservation of historical buildings is important due to their historical value and they think that historical buildings are physical links to our past. By preserving our hertiage, we preserve our identity.
- * Others believe that they should not stand in the way of development. They think that, by replacing old buildings there will be more space for housing, educational institutions and industries. They also believe that a nation shouldn't live in the past.
- * I personally believe that it is very important to maintain old buildings because they have historical and cultural significance and economic value. They have an important function in history and some are even the nation's pride. For Ex- Red Fort, Taj Mahal etc.
- * To conclude, I strongly believe that old buildings should not be replaced, not only due to their significance to nation, but also due to the fact that it doesn't hinder progress.

IMPORTANCE OF HISTORY

There are several reasons why it is important to study history. The phrase "**History repeats itself**" is commonly used. By studying history we can learn from past mistakes so we don't make the same ones in the future.

The parallels in history are very similar. The names and places may change but the events that have occurred throughout history are very similar. If people would analyze historical events, they could use that knowledge to make future decisions. This can apply to individuals in their own life or to countries as they plus future actions.

"Maths is like going to the gym for your brain. It sharpens your mind."

Danica Mackellar

It gives me immense pleasure to put my thoughts to pen for my favourite subject Mathematics. I would like to thank the management of Doaba Public School for giving me this wonderful opportunity to work for school magazine. I feel blessed to work with such an inspirational and supportive school management who gives its staff members new challenges to work upon for uplifting the standards of the school which is directly beneficial for the students.

Maths, Maths Maths what a wonderful subject. Just follow the rules to reach up to your result. You will never go wrong if you follow the rules. I can say that pure mathematics is, in its way the poetry of logical ideas. Believe it or not you cannot live without mathematics. Maths is an inseparable part of life. We spend all our life doing calculation. Let it be in terms of money, profits, losses, marks, likes, happiness, sorrows, or any other thing that exist on earth or in the space. The world economy, commerce and trade runs on mathematics. No scientific inventions is possible without maths. Top space agencies like NASA would not exist without maths. It would not have been possible to land on moon without mathematics. If we look around in our life maths is involved everywhere. Student's performance thought out life is judged in numbers. We enjoy beautiful shapes of objects which are part of geometry. Speed and time are two powerful tools of mathematics for judgement. No computer or mobile could ever be invented without mathematics. As we have master and developed mathematic, we have mastered air, water and space for our convenience.

Mathematics expresses value that reflects the cosmos, including orderliness, balance, harmony, logic and abstract beauty. The power of technology which we enjoy today is a gift of mathematics. Please believe my words. there is no shortcut to learn mathematic. The only way to learn mathematics is to do mathematics. Students and teachers of Doaba Public school have put in their best efforts in making of this school magazine. I and my team enjoyed a lot in working for the magazine.

Mrs. TAPSYA BASSI

Teaching was the First and last thing I wanted to do when I left education. This profession whole - heartedly accepted me.

I enjoyed solving puzzles, cross words, word-problems. Being a Maths teacher, in DPS Parowal is the best job, I have ever done. I have always enjoyed working with kids. I enjoyed the challenge of the subject. Teaching maths to the kids who were lacking interest in subject was one of the difficult task to do but once you get their TRUST and ATTENTION, It is the most rewarding thing ever. TEACHERS who love teaching, teach children to love learning. It is a beautiful thing, when a CAREER and a PASSION come together.

MATHS RIDDLES

- If there are four apples and you take away three, how many do you have?
 = You take three apples so obviously you have three.
- Mr. Smith has 4 daughters. Each of his daughters has a brother. How many children Mr. Smith have?
 = He has 5 children. All of the daughters have the same brother.
- Use four 9s in a math equation that equals to 100.
 = $99 + [9 \div 9] = 100$
- I add five to nine, and get two. The answer is correct but how?
 = When it is 9 a.m., add 5 hours to it and you will get 2 p.m.

SOME MATHEMATICAL TRICKS

1. Subtracting from 1,000

To subtract a number from 1000 just in your mind, follow these steps:-

Let no be = 556

1000-556

step 1:- Subtract 5 from 9 = 4

step 2 :- Subtract 5 from 9 = 4

step 3 :- Subtract 6 from 10 = 4

1000 - 556 = 444

2. Multiplication by 99

Let the no. be = 79

STEP 1 :- Multiply the number by 100

$79 \times 100 = 7900$

STEP 2 :- Subtract the given number from it .
= $7900 - 79 = 7821$

$79 \times 99 = 7821$

POETRY - MATHEMATICS

Maths taught me how to balance,
as there is a reason behind it's occurrence,

It's also an element,
Like salt in food

It's that simple dude.
Without it, you will be a grass
or, you wanna eat some grass?

Calculate the mass,
Even of the brass.

It's not that tough, not that easy

We are Doabians, let's make it
breezy!

Life is an illusion.

Simplify it by division.

The broad should be vision,
so practise it by revision.

"NUMBERS"

Numbers, numbers all around,
Everywhere they can found

Numbers tell how old I am
And how many people in my fam.

How much I weigh and just how tall
Where I live, and that's not all.

Numbers are a part of me.
Money, time and history

Where to walk up and where to eat
What size shoes to buy for my feet.

How much money something costs
A number to call if my dog gets lost

I don't know where I would be

MATHEMATICS TEACHERS CAN PROVE ANYTHING

Question - Prove that

PAPA = MAMA

Medical Doctor : "out of course"

Accountant : "No way"

Barrister : "Cannot Be proved"

Social Science :- Not in this world but

MATHEMATICS TEACHER :- It is simple solution, As we know

Pressure (P) = Force/Area

i.e $P = F/A$

$\therefore F = PA$ (i)

Now, according to Newton's 2nd law of motion

Force (F) = Mass (M) \times Acceleration (A)

i.e $F = MA$ (ii)

From equation (i) & (ii)

$PA = Ma$

Squaring both sides

$(PA)^2 = (Ma)^2$

$\therefore PAPA = MAMA$.

Hence prove.

BAVILION – SCHOOL MUSEUM

A 20-year-old school bus, which ended its permitted lifetime as a vehicle, had to undergo mandatory disposal. The bus was special to the school as it belonged to the first fleet of buses, which now has over 35 buses. The brief was to explore a possibility to reuse it in a way that it could once again be made useful to the school. The bond shared by the school bus and the school has thus found a new meaning. After serving more than 8000 school trips and taking on the responsibility of a million student's transfers, it finally rests as an integral part of the school. A play area, an open air theater, a gallery and above all a symbol that inculcates the importance of reuse and up-cycling in the students so their vision for tomorrow can be driven towards a sustainable future.
